</tbody>
</table>

◆ How to set time and day of the week

(1) Pull the crown out to the 2nd click position when the second hand is at the 12 o’clock position.

(2) Turn the crown clockwise to advance the hour and minute hands until the day hand is set to the desired day of the week.
   - The day hand will not move back by turning the crown counterclockwise.
   - To advance the day hand quickly, turn back the hour and minute hands 4 to 5 hours beyond the point of the day change (between 11:00 p.m. and 4:00 a.m.), and then advance them again until the day hand is set to the next.

(3) Turn the crown to set the hour and minute hands.
   - Take a.m./p.m. into consideration when setting the hour and minute hands to the desired time.
     - The 24 hour hand moves correspondingly with the hour hand.
     - When setting the hour hand, check that the 24 hour hand is correctly set.
     - When setting the minute hand, advance it 4 to 5 minutes ahead of the desired time and then turn it back to the exact time.

(4) Push the crown back to the normal position.

◆ How to set date

(1) Pull the crown out to the 1st click position.

(2) Turn the crown clockwise to set the date hand.
   - Do not set the date hand between 9:00 p.m. and 1:00 a.m. Otherwise, they may not change properly.
   - The date hand will not move back by turning the crown counterclockwise.

(3) Push the crown back to the normal position.
